DFAS Technical Services

Autonomy, Cardiff Teleform

- Automatic processing of invoices, loan documents, and other unstructured documents
- Forms, documents and electronic files automation on a single platform
- Every-touch audit, tracking, reporting and digital signature support
- Seamlessly connects paper-based processes with electronic business workflows

Open Text, RightFax

The proven market leader in fax servers, document delivery and fax software. RightFax delivers the most reliable and robust fax software solutions to integrate and automate the flow of a full range of fax, paper and electronic documents and data, enabling enterprises to achieve significant cost reductions.

Open Text, Alchemy

Alchemy document management software manages all of the documents and data that your organization must retain. It acts as an electronic filing cabinet for your organization, where you can securely file and find every document, no matter its original source.

Autonomy, LiquidOffice

LiquidOffice is a web-based business process automation system for creating, deploying, and automatically managing the routing, tracking, and approval processes for electronic forms. It uses industry standards such as HTML, InfoPath, and PDF formats. LiquidOffice is efficient and secure in the electronic processing of information.

GSA schedule available for government clients.
